

B1-3: 1091M5-125V (Chicago Miniature)

CON1-3: 206430-1 w/ 66181-1 (AMP Inc.)

F1: 3AG 2Amp slow-blow

1: Ext. Control
2: Off
3: On

Note: The SSRs need a minimum load of 40 mA rms to function properly. An insufficient current load may cause the SSR to conduct even if 0V is applied to the control inputs (i.e., when the relay is commanded to be off).
